ADA Paratransit Service Eligibility Process

WHY DO WE HAVE PARATRANSIT?

The Americans with Disabilities Act of 1990 (ADA), a civil rights bill, was designed to remove the barriers that prevent persons with disabilities from fully participating in American society. In the area of public transportation, the ADA clearly states that regular bus service should be the primary means of public transportation for everyone, including people with disabilities.

Under the ADA, transit agencies like NAIPTA are required to provide origin to destination, demand-responsive Paratransit service that mirrors their fixed-route service (in terms of service times and areas). The service is a safety net, only for those persons with physical, cognitive, emotional, visual, or other sensory disabilities who do not have the **functional** ability to ride fixed-route buses, either permanently or under certain conditions. The fixed-route bus system is fully accessible, with wheelchair accessible buses and major transfer facilities.

In addition, other accommodations such as bus stop and route announcements and easy-to-read signs make using the fixed-route buses possible for many people with disabilities. Persons who are able to use fixed-route buses are expected do so whenever they can. The unavailability of fixed-route service does not constitute eligibility for a person who could otherwise take the same trip on buses, if service were available.

Travel Training service is also available to those who need help in learning how to use the fixed-route buses.

WHO IS ELIGIBLE TO USE PARATRANSIT?

Under the ADA, disability alone does not qualify a person to ride Paratransit. A person must be functionally unable to use the fixed-route service. Paratransit service is provided to the following three general groups of persons with disabilities:

- 1. Persons who have specific impairment-related conditions which make it impossible not just difficult to travel to or from the bus stop.
- 2. Persons who need a wheelchair lift-equipped bus, but it is not available on the fixed-route when they need to travel. All Naipta fixed-route buses are ADA accessible.
- 3. Persons who cannot board, ride, or exit from the fixed-route buses even if they are able to get to a bus stop and the bus is equipped with a wheelchair lift.

Those persons who are certified eligible are classified as having unconditional, temporary, or conditional eligibility for ADA Paratransit Service as follows:

Unconditional status is assigned to persons who are determined unable to ever independently use fixed-route buses, even with training.

Temporary status is assigned to persons who are determined capable of using accessible buses but cannot do so at present, either because of a temporary disability or other temporary changes to the bus route, stops, or other conditions.

Conditional status is assigned to persons who are able to use fixed-route buses some of the time, but would, under certain circumstances and for certain trips, be prevented from independently using fixed-route buses. Examples of conditional eligibility include persons with extreme fatigue after treatments such as dialysis, a bus stop which requires a traveler who is blind to maneuver a dangerous pedestrian area such as a large, open parking lot with no reference points, or a fixed-route bus route that is not yet accessible.

EVALUATION PROCEDURE

All applicants seeking eligibility for ADA Paratransit Service must go through an eligibility determination process. An in-person evaluation interview is required to determine if the applicant can use the fixed-route bus system. Transportation assistance is provided as necessary to and from the evaluation appointment.

The purpose of the evaluation interview is to determine when and under what circumstances the applicant can use fixed-route buses and when Paratransit service is required.

The ADA Paratransit eligibility evaluation includes a medical verification of disability, the applicant's own assessment of his ability to use fixed-route buses, and an in-person evaluation interview. Information provided by a social service agency or other professional regarding the applicant's ability to use the fixed-route bus may also be considered.

All requested information must be provided and the application process completed before an eligibility determination can be rendered.

IN-PERSON INTERVIEW

The in-person interview helps determine whether an applicant has the ability to use fixed-route buses, and if so, under what circumstances. The interview consists of a series of questions designed to evaluate the functional abilities, limitations, and individual needs of each applicant. Variables in the environment, as well as the applicant's ability to perform the tasks required to use the bus, are also considered.

APPEALS

Information regarding the appeals process is available from the Paratransit Program Manager. Applicants who are determined not eligible, or who do not agree with the conditions established for their use of ADA Paratransit Service, may request a review of their determination by the Appeals Committee.

ADA Eligibility Worksheet Is Paratransit Right for You?

Your Name: _____

This worksheet will help you understand ADA eligibility and determine if Paratransit is the appropriate service for you. The ADA law states that ADA eligibility is given to persons whose disabilities prevent usage of regular, accessible fixed-route transit services: **An individual's disabilities must be so significant that the individual is not able to use fixed-route transit service.**

Questions	Check your answers below.			
		Sometimes	No, never	
1. Are you able to get to and from the bus stop closest to where you live?				
2. With help from the bus driver, are you able to get on and off a bus that has a lift or a ramp ?				
3. With help from the bus driver who announces major bus stops and transfer points, are you able to figure out the right bus stop to get off?	1			
4. If your trip on the bus involves transferring to another bus, are you able to make the transfer?	•			

Read the four questions on the left side of the worksheet and then check your answers on the right side. Your answers will help you determine if Paratransit might be appropriate for you.

Look at your answers:

If you checked "Yes" to all 4 questions, you are probably not ADA eligible.

If you checked "Sometimes" to one or more questions, you might be determined ADA eligible for certain trips under certain circumstances.

If you answered "No, never" to one or more of the questions, you might be ADA eligible.

A complete application and in-person interview at our NAIPTA office is necessary to formally determine ADA eligibility.

ADA PARATRANSIT APPLICATION FORM

Please complete this application to the best of your ability and as thoroughly as possible. If you have difficulty answering any questions on the application, or if you need assistance completing this form, please contact Rachelle Marble, ADA Specialist, at (928) 679-8911. In order for the application to be considered complete, **every** question on the application must be answered. We cannot begin processing the application until it is complete. If a question does not apply to you, please write 'Not Applicable' or 'NA'.

The purpose of this application is to provide an opportunity for you to describe how your disability prevents you from riding the fixed-route system. This includes any environmental and/or physical barriers that prevent you from riding the fixed-route buses. The unavailability of fixed-route service does not constitute eligibility for a person who could otherwise take the same trip on buses, if service were available.

The more complete and accurate the information you provide, the better NAIPTA will understand your abilities and travel challenges. Information contained in this application will be kept confidential and will only be shared with the professionals involved in the evaluation of your eligibility for NAIPTA, or others if disclosure is required by law.

There are three sections to this application. Parts A and B are to be filled out by the applicant or by someone on the applicant's behalf. Part C is to be filled out by a professional familiar with the applicant's <u>functional</u> abilities. The application will not be accepted or considered complete until all three parts are completed in full and submitted to NAIPTA.

PART C PROFESSIONAL VERIFICATION

Please take this section of the application to a professional for verification of your disability and your functional abilities. We prefer that this section be filled out by someone who is not only familiar with your diagnosis, but who is also familiar with your mobility. We suggest taking these forms to a Case Manager, Social Worker or Health Care Professional. If you have any questions regarding which professionals will be accepted or if the professional you have chosen is charging you a fee for the completion of this paperwork, please call the ADA Specialist at (928) 679-8911.

GUIDELINES FOR PROFESSIONAL VERIFICATION

Your patient/client has requested eligibility for NAIPTA Paratransit transportation service. Because of your professional relationship with this applicant, you are uniquely qualified to help clarify his or her functional abilities and limitations. The following are guidelines for using Paratransit. These guidelines may help you in understanding the types of information we need in order to determine the applicant's eligibility for Paratransit.

The basis for NAIPTA ADA eligibility is the American with Disabilities Act. Eligibility is based on:

- Functional ability to independently perform the tasks necessary for bus use including: getting to and from the bus stop, getting on the bus, riding the bus, and understanding how to navigate the system in a variety of environments. A diagnosis by itself does not qualify an individual for Paratransit Eligibility.
- Whether the individual is prevented from performing these tasks (as opposed to the task being more inconvenient or difficult)
- Whether the individual can perform these tasks all of the time, only under some circumstances, or if the disability would always prevent the individual from performing these tasks. Eligibility is unique to the individual's personal functional ability and reflects the patient's ability to use the bus and under what circumstances (ex: could use the bus if it was not more than two level blocks to the bus stop, and there was no snow or ice present).

INFORMATION WE NEED YOU TO PROVIDE

You may expand on, in as much detail as you can provide, how this individual's physical, sensory, cognitive, or emotional disability may impact his/her ability to travel on a bus. Please relate your comments to the specific tasks necessary to board, ride, and navigate the transit fixed-route system by describing how each condition limits his/her functional ability in these specific areas.

The following is a list of specific points which can serve as a guide for your report to NAIPTA. Please address any of the following points that apply to the applicant on the forms provided (pages 4-8):

- **Specific diagnosis and prognosis** of **each** of your patient's disabling conditions. Identify which of these conditions you are currently treating.
- Specific measurements
 - For the visually impaired: visual acuity measurements and visual field readings for both eyes
 - For the cognitively impaired: I.Q. scores and Adaptive Behavior scores
- Date of onset
 - **Prognosis:** If the individual has a progressive disease or condition, or if s/he is expected to improve or recover. Provide the best estimate of the rate at which this is expected to occur, and if therapy is part of the treatment plan.
- Mobility Impairments
 - Can the individual walk?
 - Under what conditions can s/he walk?
 - Under what conditions can s/he not walk?
 - What mobility aids does s/he use?
 - How long has s/he been using this device?
 - How far can s/he walk/travel independently using mobility aids?
 - How do weather conditions (rain, ice, snow) affect his/her mobility?
 - How are balance and endurance affected?
- Neurological Impairments or Head Injuries
 - Is judgment or behavioral inhibition impaired, and to what extent?
- Seizures
 - What type of seizures?
 - Are they controlled by medication?

Emotional and/or Behavioral Problems

- Is judgment impaired?
- Does s/he experience disabling anxiety, auditory or visual hallucinations, delusions, etc.?
- General Information
- Would the individual need the help of an assistant or companion in order to ride the bus?
- How do temperature fluctuations affect his/her functioning?

If you have questions regarding ADA Paratransit Eligibility or these forms contact Rachelle Marble, ADA Specialist, at NAIPTA (928) 679-8911. Thank you for your cooperation.
