What is Mountain Line GO!?

Mountain Line GO! is an on-demand, flexible transit service providing greater access to the Huntington and Industrial corridor. It's a point-to-point, shared-ride service, operating on a more flexible schedule than a fixed-route bus.

Passengers can book a trip in real-time via the **Mountain Line GO!** mobile app (which can be downloaded from the Apple and Google Play stores) or by calling **928-679-8989**.
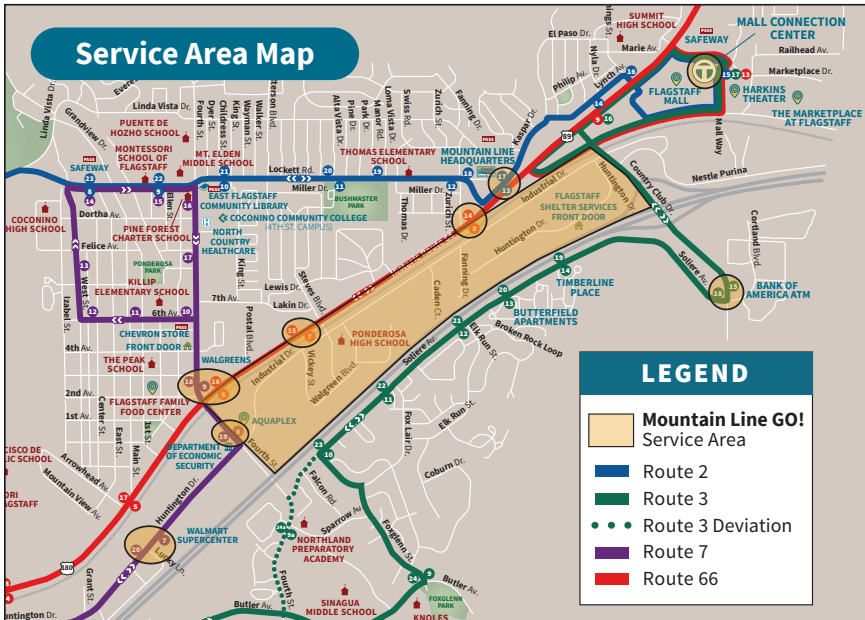

Once you've requested a ride, you'll be picked up at your location by a Mountain Line GO! vehicle, which you may share with other riders. The vehicle may also pick up or drop off other riders as it travels to your destination.

Mountain Line received a one-time grant to pilot this program. This service will run until May 2022 or until grant funding runs out.

Cost to Ride

A single ride costs $1. Payment can be made via cash or Better Bucks when you board the vehicle or in advance through the **Mountain Line GO!** app via credit or debit card. If paying by cash, please pay with exact fare, as operators do not provide change. This is a separate program from the fixed-route service, so other Mountain Line passes cannot be accepted as payment.

Don't have a smartphone? Call **928-679-8989** to request a ride. You'll pay for your trip onboard the vehicle.
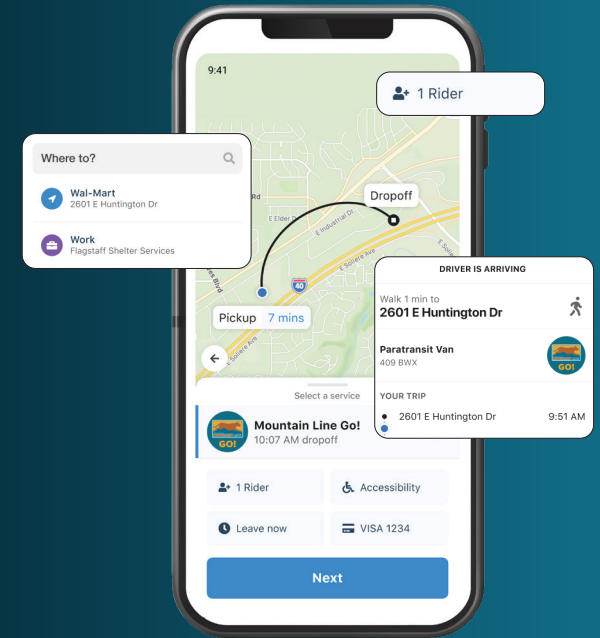

Service Area

Mountain Line will pick up and drop off riders anywhere within the designated service area, shown in yellow on the map. The service area is based on curb-to-curb coverage in the Huntington and Industrial corridor. Additional pick-up locations are defined as nearby bus stops, connecting you to Routes 2, 3, 7, and 66.
