

## **Frequently Asked Questions RFP 2024-170, Transit Bus Driving Simulator System**

**Question 1:** Section V – Scope of Services, page 15 of PDF, A. High-End Simulator System with customized driver cab replicating a driving compartment of a Gillig Hybrid/New Flyer Articulated, including genuine OEM side console and dash component(s). Can Mountain Line confirm they will select one cab variation, either a Gillig Hybrid or a New Flyer articulated, for replication?

**Answer:** Vendors should provide whichever options are available, even if they were non-specific cab designs.

**Question 2:** Section V – Scope of Services, Project Arrangement, page 16 of the PDF calls out Phase 2, which will focus on adding/enhancing customized features to the geo-specific virtual world and training environment. Can Mountain Line provide a list of specific areas within its operating area that are required for modeling in their geo-specific database?

**Answer:** Yes, but will need to meet with training staff to determine specific area's requested, prior to submitting

**Question 3:** Section V – Scope of Services, page 16 of the PDF, Driver Cab 1. The Driver Cab shall be designed and constructed to replicate Mountain Line Transit's 40-foot bus, 60 foot bus, and 26-foot paratransit vehicle using high-quality materials. The Contractor shall be responsible for contacting and coordinating with manufacturers to gather the proper information to reconstruct the full-size enclosed cab(s). Can Mountain Line confirm they will select one cab variation, either that of a 40-foot or 60-foot, for representation within the cab?

**Answer:** At the moment, we cannot confirm which model would be chosen, depending on the options available.

**Question 4:** Can Mountain Line confirm that the Past Performance surveys returned to Mountain Line at the email provided satisfy the submission requirement and do not need to be embedded within the proposal?

**Answer:** That is correct, they do not need to be included in the proposal.

Sincerely,
